

Evaluator

Move through the tryout queue quickly, score only what you observe, and keep work safe when the field connection drops.

WHO THIS IS FOR	Independent tryout scorers who do not manage a team or participate in the draft.
AVAILABLE ON	Web · iPhone · iPad
GUIDE EDITION	2026-08-03

BEFORE YOU BEGIN

Start here

1	Confirm the Division Home shows only the Divisions assigned to you. Check the Season and Division before opening Score.
2	Score by tryout number Before names are revealed, the number is the shared reference. Match the number on the player to the number on the scorecard.
3	Use the full scale Follow the league's scoring guideline and use the observed range instead of placing every player in the middle.

DO THE WORK

Core workflows

PLAY 1

Web, iPhone, or iPad

Complete an evaluation

EXPECTED RESULT	One complete five-skill evaluation is attached to the correct tryout number without exposing player identity.
--------------------	---

- 1 From Home open the active Division and choose Score.
- 2 Select the next tryout number and verify it against the player's visible number.
- 3 Choose one score for each of the five skill categories.
- 4 Add an optional evaluation note or star for your own later reference.
- 5 Choose Submit, read the value summary, and confirm only when every category is correct.

FIELD NOTE Evaluation notes can be visible to the Player Agent. Describe observed play, not medical, family, or unrelated personal information.

PLAY 2

iPhone or iPad

Work through an offline period

**EXPECTED
RESULT**

Evaluations completed without service are retained on the device and delivered once the connection returns.

- 1 When the offline message appears, stay signed in and keep the app installed.
- 2 Submit the scorecard normally and confirm the pending indicator increases.
- 3 Continue only on this same device and account; do not enter the same player again elsewhere.
- 4 When service returns, keep the app open until the pending count reaches zero.
- 5 Tell the Player Agent immediately if a queued item shows an error or remains pending.

PLAY 3

Web, iPhone, or iPad

Update a note or star

**EXPECTED
RESULT**

Your qualitative reminder is corrected without changing the final skill scores.

- 1 Return to the player's entry from the scoring queue.
- 2 Edit the evaluation note or change the star state.
- 3 Save and confirm the updated indicator appears.
- 4 For any skill-score error, stop and give the player number and intended correction to the Player Agent.

PERMISSIONS AND HANDOFFS

Know your boundaries

- Evaluator access is scoring-only. It does not include player names before reveal, draft control, team rosters, trades, or league administration.
- Skill values lock after submission. Notes and stars remain editable and may be visible to the Player Agent; the Player Agent owns audited score corrections.
- Do not sign out, clear app data, or uninstall while offline scores are pending.

RECOVER WITH CONFIDENCE

When something looks wrong

The expected Division is missing.

LIKELY CAUSE	The invitation may not include that Season Division or you may be signed in with another email.
WHAT TO DO	Confirm the email on Home and ask the League Administrator or Player Agent to verify your exact assignment.

The scorecard submit button is not ready.

LIKELY CAUSE	At least one of the five required categories has no selection.
WHAT TO DO	Review Hitting, Fielding, Throwing, Baserunning, and Pitching, then submit again.

A pending offline score does not clear.

LIKELY CAUSE	Connectivity may still be unstable or the server rejected a duplicate/final entry.
WHAT TO DO	Keep the app open online, do not resubmit the player, and ask the Player Agent to verify the player number before any retry.

SUPPORT HANDOFF

Get the right help

Contact the Player Agent during the event for queue, player-number, scoring, or sync issues.
Contact the League Administrator for account assignment. If technical help is still required, email support@talenttap.app with the league, Division, device type, player number, and visible support reference - never include a password or player name.

- 1 Name the league, Division, and action you were completing.
- 2 Include the exact visible support reference, device, and approximate time.
- 3 Leave out passwords and any player information that is not needed to investigate.
